PROFESSIONAL SUMMARY

Computer Science graduate with 1+ years of hands-on experience in UX design, currently transitioning into software engineering. Skilled at translating user requirements into structured, technically-sound interfaces, and experienced working alongside developers throughout the build process. Now developing core backend skills in PHP and Laravel to grow into a full-stack contributor.

EXPERIENCE

UX Designer - Intern (Hybrid)
Orbit360 (Pvt) Ltd | Feb 2025 – Feb 2026

UX Designer - Associate
Orbit360 (Pvt) Ltd | Feb 2026 – Present

EDUCATION

Bachelor of Computer Science
University of Ruhuna (2022-2025)
Graduation - 2026 Dec

GCE Advanced Level (Physical Science stream)
Zahira College, Mawanella (2016-2019)
3B Passes - 1.4809 ZScore

TECHNICAL SKILLS

Frontend : *ReactJS, TypeScript, HTML, CSS, JavaScript, Tailwind CSS*

Backend: *Node.js, NestJS, RESTful API Design, MySQL*

Tools & Version Control: *Git, GitHub, Postman, VS Code*

Design & Prototyping: *Figma, Adobe XD, Adobe Illustrator*

AI Tools: *GitHub Copilot, ChatGPT / Claude (AI-assisted development & debugging)*

Methodologies: *Agile, Cross-functional Collaboration*

PROJECTS

1. Regal Hardware ERP & POS (regalhw.lk)

- I built and deployed an Odoo-based POS and a custom ERP for a 5-terminal hardware store. The work covered legacy data migration, invoice redesign, fingerprint-integrated attendance and payroll, and SMS billing.
- Tech: Odoo, PHP, MySQL, JavaScript
- Customer site: regalhw.lk This is an online store where customers browse products and place orders that flow directly into the ERP.
- POS site: regalhw.lk/demo This is the live POS and ERP demo, with demo login.

2. Amore Ice Cream – Cafe Website (ReactJS)

- Built a speculative outreach website for a local café/gelato shop based on their menu and social content.
- Website Link : <https://amore-icecream.web.app>

3. Veloura – Luxury Retail Storefront (ReactJS)

- Developed a storefront with owner-editable product listings, category filtering, and WhatsApp-integrated ordering.
- Website Link : <https://veloura-online-store.web.app>

4. YYR International Trading – Multi-Service Business Site (ReactJS)

- Delivered a client website spanning real estate, brokerage, and retail, with a Firebase-powered admin panel
- Website Link : <https://yyr-international-trading.web>

5. Gloss Workx – Car Detailing Business Website (ReactJS, Google Apps Script)

- Built a website for Gloss Workx, a local car detailing business, using ReactJS
- Integrated a booking form with Google Apps Script to automate appointment submissions and client outreach
- Supported client communication and requirements gathering to align the site with business needs
- Website Link : <https://glossworkx-landing-page.web>

6. Exam Management System (EMS) — Department of Computer Science

- Developed a secure Exam Management System using ReactJS, Spring Boot, and MySQL to digitize academic exam workflows
- Implemented core features including role-based user management, automated grading, result dissemination, and encrypted data handling
- Improved exam process efficiency by streamlining workflows and enforcing secure data handling practices
- Contributed across the full project lifecycle — requirement gathering, system design, development, and testing
- GitHub Link : <https://github.com/uditha2001/EMS>
